Wolf'em Cooking Stick

Item: 648888

Invented by two teenage Eagle Scout brothers from Utah, the Wolf'em Stick is the ultimate campfire cooking tool. It has a unique rotary handle that makes cooking marshmallows, hot dogs and Wolf'ems a breeze. The two included attachments (interchangeable roasting fork and Wolf'em attachments) let you make all of your favorite campfire foods easily! They are made from hardwood and stainless steel, so they will last through all of your adventures! The hardwood makes cooking safer because it doesn't transfer heat as readily, so it is much less likely to cause a burn. The 3/16" metal shaft is made from 430 stainless steel, so it can hold the heartiest of loads and not droop and drop your meal. The recipe for Wolf'em treats are included!
